ABOUT US

Terrapin STEM Camp is a summer day camp for students in grades K-5. It partners with STEM professionals to design curriculum that is current with latest developments in coding, programming and mathematics.

Terrapin STEM Camp uses team-building activities to help students gain appreciation for one another and to facilitate collaboration.

In addition to instruction in science, technology, engineering and mathematics, Terrapin STEM Camp provides a comprehensive program that includes sports, arts & crafts, and educational play.

Before and after camp care is also provided.

STEM PROGRAMS

Terrapin STEM Camp offers a variety of engaging activities. Courses are scheduled throughout the summer based on instructor availability. Please see camp website for detailed class descriptions.
